

Affiliate Key Information

Thank you for your interest in the My Maths Guy affiliate program. By promoting my online Math courses you'll be helping students become more skilful and confident in Maths, while earning commission on each sale. Please read the following carefully as it outlines how my affiliate program works.

- 1) If you've not yet applied to become an affiliate you can do so [HERE](#).
- 2) If you've already been approved as an affiliate you'll find the affiliate links in your affiliate dashboard. You can access the dashboard via the welcome email.
- 3) You can learn more about using the affiliate dashboard [HERE](#).
- 4) Your primary resources are the affiliate links. Each time a purchase is made via one of these links you'll be credited with the sale.
- 5) You will earn commission of 10% on each sale generated via your affiliate link.
- 6) Affiliate links have been pre-loaded into your affiliate dashboard. Simply copy the link and promote it using whatever channels you wish.
- 7) Promotional materials are also available in your affiliate dashboard. These can be downloaded and used in things like social media posts.
- 8) Commission payments will be made monthly on, or around, the 10th of the month.
- 9) There will be a one month delay in receiving commission payments. So, for example, any commission due for sales in August will be paid in October. This allows for any course refunds to be made.
- 10) Commission payments will be made via PayPal.
