

# Trigonometry

Section 1 – Introduction

Section 2 – Pythagoras' Theorem

Section 3 – Trigonometry with Right-Angled Triangles

Section 4 – Trigonometric Functions & Their Graphs

Section 5 – Graphs of Transformed Trigonometric Functions

Section 6 – Reciprocal Trigonometric Functions & Their Graphs

Section 7 – Trigonometry with General Triangles

Section 8 – Radians and Trigonometric Values for Common Angles

Section 9 – Trigonometric Identities

Section 10 – Solving Basic Trigonometric Equations

## Section 1 – Introduction

What is Trigonometry?

## Section 2 – Pythagoras' Theorem

Finding a Missing Side of a Triangle

The Converse of Pythagoras' Theorem

## Section 3 – Trigonometry with Right-Angled Triangles

The Trigonometric Ratios

The Trigonometric Ratios – Finding Missing Sides

The Trigonometric Ratios – Finding Missing Angles

## Section 4 – Trigonometric Functions & Their Graphs

The Unit Circle

The Unit Circle Definitions of the Trig Functions

The Graph of the Sine Function

The Graph of the Cosine Function

The Graph of the Tangent Function

The CAST Diagram

CAST Diagram in Radians

## **Section 5 - Graphs of Transformed Trigonometric Functions**

Moving Graphs Horizontally

Moving Graphs Vertically

Stretching / Compressing Graphs Horizontally

Stretching / Compressing Graphs Vertically

Inverting Graphs of Trigonometric Functions

Combining Graph Transformations of Trigonometric Functions

## **Section 6 – Reciprocal Trigonometric Functions & Their Graphs**

The Secant Function

The Cosecant Function

The Cotangent Function

## **Section 7 – Trigonometry with General Triangles**

Using the Sine Rule to Find Missing Angles

Using the Sine Rule to Find Missing Sides

Using the Cosine Rule for Missing Angles

Using the Cosine Rule for Missing Sides

## **Section 8 - Radians and Trigonometric Values for Common Angles**

Using Radians

Trigonometric Values for Common Angles

Trigonometric Values for Multiples of Common Angles

## **Section 9 – Trigonometric Identities**

The Trigonometric Double Angle Formulas

Using The Trigonometric Double Angle Formulas

The Trigonometric Addition Formulas

The Wave Function

Using The Trigonometric Addition Formulas

Proving Trigonometric Identities

Trigonometric Identities for Secant, Cosecant and Cotangent

## **Section 10 - Solving Basic Trigonometric Equations**

Solving Trigonometric Equations Using a Calculator in Degrees

Solving Trigonometric Equations Using a Calculator in Radians

Solving Trigonometric Equations Using Exact Values in Degrees

Solving Trigonometric Equations Using Exact Values in Radians
